Subject: Remedial Branch Site Objectives FY15

All,

Attached is a copy of the Remedial Branch Site Objectives for FY15. The objectives are succinct statements of the work that is planned for each NPL site in FY15. Hopefully you and your staff will find this useful in planning your respective work.

Let me know if this information is useful to you, and if you have any suggestions for level of information, format, etc.. We anticipate using this as companion information to SEMS/Primavera, especially during this transition time that we don't have full faith in the available information.

John C Meyer
